

1998 August 24 - September 18

HEALTH DEVELOPMENT BEYOND 2000

The Third Training Course For Future Health Leaders

TOKAI UNIVERSITY SCHOOL OF MEDICINE
NEW HEALTH LEADER NETWORK

in collaboration with
The World Health Organization
Regional Office for the Western Pacific

Invitation To The Third Training Course

We, Tokai University School of Medicine and New Health Leader Network, held "The First and Second Training Course for Future Health Leaders" for four weeks in 1996 and 1997, in collaboration with the World Health Organization Regional Office for the Western Pacific (WHO-WPRO) and the Agency for Cooperation in International Health, and with the support of the Ministry of Health and Welfare, the Ministry of Foreign Affairs and the Japan Medical Association.

13 fellows in 1996 and 8 fellows in 1997 participated in our training course and they were at the director or the hospital chief administrator level from Health and Welfare Ministries in ten countries. The course covered matters of use in future administrative plan of health and welfare and was composed of five pillars: population issues, food and nutrition issues, acute infectious diseases, practical health economics and management, and computer training.

This training course has intended to dissolve many urgent problems waiting urgent solutions and stable issues in health related affairs such as changes of nutrition, infectious diseases, environmental conditions, and urbanization which have been altering the level, priority, character, and form of international and institutional support at family, community and regional level in changing global human environment towards next century. WHO-WPRO sended WHO fellow with scholarship to the Second Training Course.

Dr. Sang Tae Han, M.D., Ph.D., Regional director of the WHO Regional Office for the Western Pacific, strongly supported this training course, particularly direction and thinking process of health futures while preparing this course. These are the principles of our motive to create this course as important educational mission.

The Third Training Course in 1998 will focus on the creative education for health futurists who have abilities to forecast future health. The experiences from the past two courses endow us to open the third course with the charming curriculum.

We would like to express our sincere appreciation to whole people and institutions, particularly to the WHO Regional Office for the Western Pacific, the Japanese Government, Foreign Embassies in Japan, the United Nations University, Keidanren, Japan International Cooperation Agency, and the Japan Medical Association, who have contineously supported this educational and missionary work to become as real for everyone in the health care field.

We would like to accept active fellows who join with us and make a new world.

Kiyoshi Kurokawa, M.D., Ph.D.
Dean
Tokai University School of Medicine

Norikazu Tamaoki, M.D., Ph.D.
Former Dean
President
New Health Leader Network

What is the Spirit of This Course ?

Social, economic and political changes are occurring at a very fast pace throughout the world. In many countries these changes, together with demographic changes such as urbanization and aging of populations, have been contributing to an emerging future health situation which will be vastly different from the past and the present. In addition the world is seeing an epidemiologic shift where lifestyle related diseases are gaining importance and rapid technological advances which will modify health interventions in the future. So, the spirit of this course is "the forecast for health development in the future."

What should Public Health Professionals do in the Future ?

Health professionals of the future, especially those who specialize in public health, will have to take leadership in order to ensure that emerging challenges to health are met effectively. Planners, policy makers and managers of health systems must be able to detect, identify, make judgements and make projections of health conditions and requirements of the future. This will enable them to ensure quality, effectiveness, efficiency and continuity of health services after the 21st century.

How does This Educational Programme Meet This Need ?

Futuristic approach, prospective study, and improved action for the cost effectiveness on health quality and equity have not been included in conventional public health. Educational programme consists of 5 modules: Introductory module; Problem identification and issues analysis; Health technology assessment; Approaches and health intervention; and Health systems reform. This programme was prepared in collaboration with the WHO Western Pacific Regional Office (WPRO). The principles and philosophy of this course curriculum were printed in both brochures for 1996 and 1997 applicants. The main educational method to be used in the course/seminar will be problem-based or problem- oriented teaching and learning. Lectures and discussions in the first and second courses were evaluated using SWOT (Strengths, Weaknesses, Opportunities, Threats) analysis. Lessons from the first and second courses experience will be useful for the preparation of detailed behavioral objectives and outcomes for each activity. To achieve these, work and discussions will be carried out in plenary or in small groups (4-5 per group) as well as by individuals.

What was done in the First and the Second Training Courses ?

The four-week training session was indeed a rewarding challenge, as the trainees came to absorb this extraordinary amount of the information and conducted vigorous discussions. The contents of the lectures in the First Course was published in the Tokai Journal of Experimental and Clinical Medicine in November, 1997. The report of the Second Course was published in January, 1998.

During the training course, an opened International Symposium was held at the United Nations University. In 1996 the theme was "Future Prospect of Health and Insurance Program in Developing and Developed Countries." Last year the theme was "Exchange Ideas on AIDS Control Between Developing and Developed Countries." We published the proceedings in 1996 and the press in 1997.

How was the First and the Second Training Courses Evaluated ?

WHO-WPRO highly evaluated the First Training Course and provided WHO fellowship to the Second training Course. Japanese government and several foundations evaluated the First and the Second Training Courses very high, and supported this project.

How to Improve the Third Training Course from the experience of 1996 and 1997 Courses ?

The following items were included in the Second Training Course.

- 1) Emerging and re-emerging infectious diseases, especially AIDS and tuberculosis, should be more extensively discussed.
- 2) We allocated more time and classes to the computer training and the related information exchange than we did in 1996.
- 3) Industrialization and urbanization related to the change of lifestyle was included.
- 4) Lecturers and fellows could use Tokai University Library of Isehara Campus for 24 hours.
- 5) Three graduates of the first training course joined in the second training course as a lecturer in order to build the ideal training course in the world.

The Third Training Course in 1998 should be improved as follows:

- 1) Above 5 points in 1997 should be continued in 1998.
- 2) Forecasting training starts as the first session using computer.
- 3) Every morning during the training course fellows should access to information using computer or to design the future based data for health policy making in the future.
- 4) Every afternoon and evening fellows simulated or designed forecasts with professors.

What is the Primary Goal ?

The primary goal is to build new multi-disciplinary skills and abilities to meet requirements of health in the future and conductivity of future health-related actions and new priority in the fellows' home countries.

Who can Apply ?

Senior national or local level health officials with present or potential responsibility for the formulation and promotion of health policies as well as the designing and implementation of programmes. In addition to fellows from government researchers, managers and trainers in the institution and graduate students will be considered in 1998. Approximately 20 officials from any countries. The upper age limit is 45, but exceptions will be considered on a case by case basis. Applicants should have a sufficient command of spoken and written English, and also be in good health, both physically and mentally, to undergo the training.

Educational Board Structure is Authorized ?

The Educational board structure is composed of representatives from multi-national universities, WHO collaboration center in educational development, experts from WHO, governmental organization, and International Health Futures Network of a WHO/NGO.

Who are Lecturers and Discussants ?

Symposists of Urbanization

Nobuyuki Hyoui

Senior Research Officer, National Institute of Public Health, Japan

Kenji Hayashi

Professor, National Institute of Public Health, Japan

Akira Onishi
Vice President, Soka University, Japan

Takeshi Tsubo
Professor, Department of Community Health, Tokai University School of Medicine, Japan

Andrzej Wojtczak
Director, WHO Centre for Health Development, Kobe, Japan

Satoru Miyamura
Director, World Bank Tokyo Office, Japan

Yoshihisa Watanabe
President, The Institute of Health Systems Development, Japan

Shunsaku Mizushima
Instructor, Yokohama City University School of Medicine, Japan

Harumi Kuno-Sakai
Associate Professor, Department of Pediatrics, Tokai University School of Medicine, Japan

Sadaki Inokuchi
Associate Professor, Department of Emergency Medicine, Tokai University School of Medicine, Japan

Norikazu Tamaoki
Former Dean, Tokai University School of Medicine, President of New Health Leader Network, Japan

Isao Okazaki
Professor and Chairman, Department of Community Health, Tokai University School of Medicine, Japan

Effective Use of Information and Computer Training

Takeshi Tsubo
Professor, Department of Community Health, Tokai University School of Medicine, Japan

Yoshihisa Watanabe
President, The Institute of Health Systems Development, Japan

Tetsu Watanabe
Associate Professor, Department of Community Health, Tokai University School of Medicine, Japan

Shigenari Hozawa
Assistant Professor, Department of Community Health, Tokai University School of Medicine, Japan

Ipppei Watanabe
Associate Professor, Department of Health Services Management, Faculty of Health Services and Welfare, Hiroshima International University, Japan

Tohru Kaizu
Instructor, Tokai University School of Medicine, Japan

Non-communicable Diseases and Health Control

N. V. K. Nair
Director, Health Protection and Promotion, WHO-WPRO

Som-arch Wongkhomthong
Professor, Department of International Health, Faculty of Medicine, The University of Tokyo

Isao Okazaki
Professor, Department of Community Health, Tokai University School of Medicine, Japan

Tetsu Watanabe
Associate Professor, Department of Community Health, Tokai University School of Medicine,
Japan

Kiyoko Kubomura
Director, Kubomura Food Institute, Japan

Changes of Health Managing Standards

Koji Morooka
Professor, Department of Management Engineering, Tokai University School of Engineering, Japan

Takeshi Tsubo
Professor, Department of Community Health, Tokai University School of Medicine, Japan

Toshitsugu Hasegawa
Director, Div. of Health Policy Making, National Institute of Health Care Management, Japan

Hisashi Imai
Assistant Professor, Yamanashi Gakuin University, Japan

Ippei Watanabe
Associate Professor, Department of Health Services Management, Faculty of Health Services and Welfare,
Hiroshima International University, Japan

Hong Rathavuth
Director, Department of Medical Care, Ministry of Health, Cambodia

Emerging and Reemerging Infectious Diseases Control

Richard M. Krause
Senior Scientific Advisor, Fogarty International Center, National Institute of Health, U.S.A.

Isao Arita
Chairman, Agency for Cooperation in International Health, Japan

Harumi Kuno-Sakai
Associate Professor, Department of Pediatrics, Tokai University School of Medicine, Japan

Mitsuhiro Kamakura
Assistant Professor, Department of Preventive Medicine, Keio University School of Medicine, Japan

Akira Kaneko
Associate Professor, Department of International Affairs and Tropical Medicine, Tokyo Women's Medical
College, Japan

Kazuo Kusumoto
Chief of Specialized Outpatient, AIDS Clinical Center
Bureau of International Cooperation, International Medical Center of Japan, Japan

Chushi Kuroiwa
Medical Officer (Pediatrician),
Bureau of Internatinal Cooperation, International Medical Center of Japan, Japan

Shigeki Isuda
Deputy Director, International Affairs Division, Minister's Secretariat, The Ministry of Health and
Welfare, Japan

Tohru Mori
Director, The Research Institute of Tuberculosis, Japan Anti-Tuberculosis Association, Japan

Environmental and Occupational Health

Takahiko Yoshida
Associate Professor, Department of Environmental Health, Tokai University School of Medicine, Japan

Isao Okazaki
Professor, Department of Community Health, Tokai University School of Medicine, Japan.

Schedule for the Third Training Course 1998

8/24 (Mon.) 18:00-20:00

Get-Together Reception

at The President Hotel (Aoyama, Tokyo)

Welcome Address: Dr. K. Kurokawa (Dean, Tokai University School of Medicine)
Dr. N. Tamaoki (President, New Health Leader Network)

8/25 (Tue.)

International Symposium on Health Aspects of Urbanization

at The United Nations University (Aoyama, Tokyo)

9:00-9:30 Opening Ceremony

Chaired by Dr. N. Tamaoki
Opening Address : Dr. K. Kurokawa (Dean)
Welcome Address: Dr. Hans Van Ginkel (Rector, The United Nations University)
Dr. S. Tani (Director General, Health Policy Bureau, The Ministry of Health
and Welfare, Japan)
Dr. E. Tsuboi (President, the Japan Medical Association)
Keynote Address : Dr. S. T. Han (Regional Director, WHO-WPRO)

Session 1 : Increased Global Population and Megacities

Chaired by Dr. N. Tamaoki
9:30-10:30 "Problem Identification and Issues- Population Dynamics"
Dr. N. Hyoi
10:30-10:45 Coffee break
10:45-11:15 "Intervention Trial in Population"
Dr. K. Hayashi
11:15-11:45 "Fiji Model-Future Estimation and Application to Risk Management"
Dr. A. Onishi
11:45-12:30 Discussion
All symposists and all fellows

Lunch

Session 2 : How to Construct Healthy Cities

	Chaired by Dr. T. Tsubo
13:30-14:00	"Urbanization and Health in View of Research at the WHO Centre in Kobe" Dr. A. Wojtczak
14:00-14:30	"World Bank Efforts" Ms. S. Miyamura (TBD)
14:30-15:00	"From Aspect of Aging Society" Mr. Y. Watanabe
15:00-15:30	Discussion All symposists and all fellows
Coffee break	

Session 3 : Emerging Diseases Control

	Chaired by I. Okazaki
15:45-16:15	"Non-communicable Diseases in Megacities" Dr. S. Mizushima
16:15-16:45	"Communicable Diseases" Dr. H. Kuno-Sakai
16:45-17:15	"Disaster Medicine in Megacities" Dr. S. Inokuchi
17:15-15:45	Discussion All symposists and all fellows
18:00-20:00	Reception at The United Nations University Hall

8/26 (Wed.)

*Move to FORUM 246 in the morning
Move to Tokai University School of Medicine.
The lecture room in this university will be used till the last day of the course*

Dr. I. Okazaki	What is our goal? Spirit of this course-Health Futurists' Mind
Dr. T. Tsubo	

Effective Use of Information and Computer Training

8/27 (Thu.) to 8/29 (Sat.)

Mr. I. Watanabe	Computer practice
Dr. T. Watanabe	
Dr. S. Hozawa	
Mr. T. Kaizu	
<Special Lecture>	
Dr. I. Nakajima	Disaster medical care using satellite communication
Dr. Y. Ogushi	Multimedia and telemedicine

8/31 (Mon.) to 9/2 (Wen.)

Dr. T. Tsubo	Future health situation - BFT (Bioforecasting Technology)
Dr. Y. Watanabe	Planning, managing, forecasting
Members of IHSD	
Dr. Y. Ogushi	

Non-communicable Diseases and Health Control

9/3 (Thu.) - 9/7 (Mon.)

Dr. N.V.K. Nair	WHO's effort for nutrition - Approaches and health interventions
Dr. I. Okazaki	Problem identification and issues - Foods supply and safety
Dr. T. Watanabe	
Dr. S. Wongkhomthong	Control for deficient nutrients

Dr. I. Okazaki	Control of cardiovascular diseases
Dr. T. Watanabe	Control of obesity and diabetes mellitus
Mrs. K. Kubomura	Functional foods regulation

Changes of Health Managing Standards

9/8 (Tue.) to 9/12 (Sat.)

Dr. T. Tsubo	New standard of governance Private sector and public sector
Dr. T. Hasegawa	Health care reform and health transition in developing countries
Dr. T. Morooka	Hospital management engineering
Mr. I. Watanabe	Industrial engineering of hospital Theory and exercise
Mr. H. Imai	Resources allocation
Dr. H. Rathavuth	Health care systems and services reform

Emerging and Reemerging Infectious Diseases Control

9/14 (Mon.) to 9/17 (Thu.)

Dr. R. M. Krause	Approaches and intervention to infectious diseases, cholera and other G. I. infections, streptococcal infections and rheumatic fever cost analysis, Epidemiology and control of tuberculosis with AIDS
Dr. I. Arita	Global surveillance on emerging or re-emerging diseases
Dr. M. Kamakura	AIDS control
Dr. H. Kuno-Sakai	Control of epidemics of viral diseases
Dr. A. Kaneko	Control of epidemics of malaria
Dr. K. Kusumoto	Control of epidemics of smallpox, poliomyelitis and measles
Dr. C. Kuroiwa	
Dr. S. Tsuda	Children's vaccine initiative
Dr. T. Mori	Tuberculosis control

Environmental and Occupational Health

9/18 (Fri.)

Dr. T. Yoshida	Control of environmental and occupational health
Dr. I. Okazaki	

Closing Ceremony

Dr. K. Kurokawa	Closing remarks
Dr. N. Tamaoki	
Dr. I. Okazaki	
Dr. T. Tsubo	

When, Where and by What Language is It Held ?

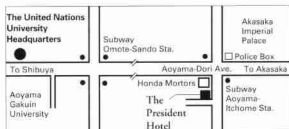

Training course will be held mainly at Tokai University School of Medicine (Isehara Campus) and one day (August 25) at The United Nations University (Tokyo), from August 24 to September 18, 1998, using English.

What Kind of Certification is Issued ?

The certificate of completion will be issued by Tokai University.

Where is the Get-together and Registration Place ?

Trainees and symposists of the International Symposium should register at the desk of The President Hotel (Aoyama, Tokyo) on August 24 in 1998. This hotel is near to The United Nations University, 10 minutes on foot. Trainees will be able to stay at this hotel for a few days before August 24, but the reservation should be necessary as soon as possible.

Place/Address: The President Hotel (Aoyama, Tokyo)

2-2-3 Minami-Aoyama, Minato-ku, Tokyo 107-0062, Japan

The hotel is located in the center of Tokyo, close to The United Nations University and the Jingu-Gaien Park, and just in front of subway Aoyama-Itchome Sta.

From abroad: Tel.: +81-3-3497-0111

Fax: +81-3-3401-4816

All domestic calls: Tel.: 03-3497-0111

Fax: 03-3401-4816

Transportation:

From Narita Airport

Keisei Skyliner: Narita Airport <=> Keisei Ueno Sta. (60 min.)

Subway from Ueno Sta. through Ginza Line :Ueno Sta. <=> Aoyama-Itchome Sta. (30 min.)

Limousine Bus: Narita Airport <=> Tokyo City Air Terminal (Hakozaki) (80 min.)

Subway from Tokyo City Air Terminal: Suitengu Sta. <=> Aoyama-Itchome Sta. (30 min.)

From Tokyo Station

Subway through Marunouchi Line: Tokyo Sta.<=> Akasaka-Mitsuke Sta. (15 min.)

then change Ginza Line: Akasaka-Mitsuke Sta. <=> Aoyama-Itchome Sta. (5 min.)

Where is the Residential House ?

August 24 and 25

All trainees and symposists will stay at The President Hotel (Aoyama, Tokyo) .

August 26 to September 18

Trainees and lecturers will stay at FORUM 246 which is located close to Isehara Campus of Tokai University School of Medicine 10 min. by car. It has the facilities for training, exhibition and sports with accommodation.

Place/Address: FORUM 246

350 Ishida, Isehara, Kanagawa 259-1126, Japan

From abroad: Tel.: +81-463-96-3711

Fax: +81-463-96-3707

All domestic calls: Tel.: 0463-96-3711

Fax: 0463-96-3707

Transportation:

From Narita Airport

JR Narita Express: Narita Airport <=> JR Shinjuku Sta. (90 min.)

Limousine Bus: Narita Airport <=> JR Shinjuku Sta. (about 2 hours)

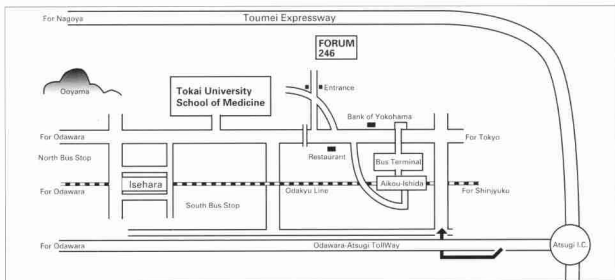

Change line at Shinjuku from JR to Odakyu Line.

Odakyu Shinjuku Sta. <=> Aikou-Ishida Sta. (55 min.)

You have to get express bound for "Odawara" or "Hakone-Yumoto" on the 1st - 6th car from the front.

FORUM 246 is located 7 min. on foot or a few min. by taxi from Aikou-Ishida Sta.

High Way: Get off at Atsugi I.C. (30 min. from Tokyo) .
 It takes 10 min. from Atsugi I.C. to FORUM 246

Where is the Place for the Training Course ?

The Training Course will be held mainly at Tokai University School of Medicine.

Place/Address: Tokai University School of Medicine, Dept. of Community Health, 143 Shimokasuya, Isehara, Kanagawa 259-1193, Japan

From abroad: Tel.: +81-463-93-1121, Ext. 2621 Fax: +81-463-92-3549

All domestic calls: Tel.: 0463-93-1121, Ext. 2621 Fax: 0463-92-3549

Transportation:

Odakyu Sinjuku Sta. <-> Isehara Sta. (57 min.)

20 min. on foot from Odakyu Line Isehara Station to Tokai University School of Medicine

Where is the Place for the International Symposium (August 25) ?

International Symposium on Health Aspects of Urbanization will be held at *The United Nations University, Tokyo*.

Places/Address: The United Nations University, Headquarters Building 53-70 Jingumae 5chome, Shibuya-ku, Tokyo 150-0001, Japan

From abroad: Tel.: +81-3-3499-2811

Fax: +81-3-3499-2828

All domestic calls: Tel.: 03-3499-2811

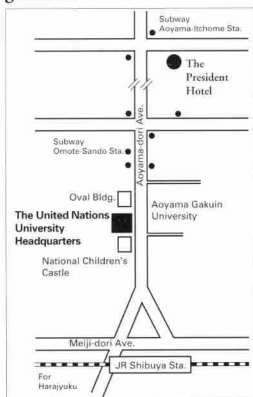

Fax: 03-3499-2828

Transportation:

Subway Omote-Sando Sta.: 8 min. on foot

JR Shibuya Sta.: 15 min. on foot

From the President Hotel (Aoyama) : 20 min. on foot.

How to Apply ?

Applicants should send Form 1, a recommendation letter of his/her superior, a summary of his/her motive to enter the course (300 words), and personal history (curriculum vitae) to the Secretary General, Dr. Isao Okazaki, M.D., Ph.D. until the end of May in 1998 for The Third Training Course (1998). If applicants and his/her superior wish to get fund, he/she should send a letter to WHO the Regional Office of Western Pacific (Dr. Nair, N.V.K., Director, Div. of Health Infrastructure) with the recommendation letter of his/her superior. These copies should be sent to the Secretariat.

How to Process at The Secretariat ?

1. Application

The credential committee decides the acceptance of applicants. For those qualified applicants the secretariat send the official letter of acceptance, general information, and questionnaire for effective grouping of practice of computerization until the end of June, 1998.

2. Funding Support

Each applicant has different private conditions and circumstances. The secretariat examine carefully about individual requests such as self funding, his/her superior's support, obtained WHO Fellowship, and other scholarship to comply with qualified applicant's requests as much as possible.

How to Register ?

The accepted applicants should send the Registration Form (Form 2) and the answer to questionnaire to the Secretariat as soon as possible. Tuition and accommodation fee must be received 3 weeks before the start of the training course.

Tuition:

Tuition for the 1998 course is \$5000. Accepted applicants should remit the same to the following.

Bank: Bank of Tokyomitsubishi, Tokai Daigaku Byoin Branch, 143 Shimokasuya, Isehara, Kanagawa 259-1143, Japan

Account No: 268-0220168 (Ordinary Deposit Account)

Account Name: New Health Leader Network Norikazu Tamaoki

Accommodation:

Accommodations including three meals a day are available at the following rates for 4 weeks: \$5000. Accepted applicants should remit the amount to the same bank account.

Advisory Board Members

Dr. Tatsuro Matsumae
President, Tokai University Educational System

Dr. Norio Matsumae
President, Tokai University

Dr. Sang Tae Han
Director, WHO, WPRO

Dr. Kiyoshi Kurokawa
Dean, Tokai University School of Medicine

Dr. Norikazu Tamaoki
Former Dean, Tokai University School of Medicine
President of New Health Leader Network

Dr. Tetsuzo Akutsu
Chairman and CEO, Terumo Corporation

Dr. Isao Arita
Chairman, The Agency for Cooperation in International Health

Dr. Keiji Okada
Vice-President, NTT Advance Technology Corporation

Dr. Isao Okazaki
Professor and Chairman, Department of Community Health, Tokai University School of Medicine

Mr. Robert Hyams
First Secretary, Environmental Scientific and Technological Affairs, Embassy of the United States of America

Dr. Sohichi Iijima
President, Aichi Arts Center

Mr. Yotarou Kobayashi
Chairman and CEO, Fuji XEROX Co., Ltd.

Mr. R.K.Kalra
Second Secretary, Cultural Section, Embassy of India

Dr. Akira Matsuda
Director, National Institute of Health Care Administration, Ministry of Health and Welfare

Mr. Max Bond
Office of the Rector, The United Nations University

Mr. Satoru Miyamura
Director, World Bank Tokyo Office

Dr. Zhai Yu Shen
Counsellor, Embassy of the People's Republic of China

Dr. Hideo Shinozaki
Director-General, Department of Health and Welfare for Persons with Disabilities, Minister's Secretariat,
The Ministry of Health and Welfare, Japan

Dr. Keizo Takemi
Member, The House of Councillors
Professor and Deputy Director, Strategic Peace and International Affairs Research Institute, Tokai University

Dr. Takeshi Tsubo
Professor, Department of Community Health, Tokai University School of Medicine

Dr. Soroku Yamagata
Executive Director, Japanese Foundation for AIDS Prevention

Organizing Committee

Dr. Isao Arita
Chairman, The Agency for Cooperation in International Health

Dr. Isao Okazaki
Professor and Chairman, Department of Community Health, Tokai University School of Medicine

Dr. Kouichi Miura
Professor, Office of the Chairman of the Board of Trustees, Tokai University

Dr. Keizo Takemi
Member, The House of Councillors
Professor and Deputy Director, Strategic Peace and International Affairs, Research Institute, Tokai University

Dr. Norikazu Tamaoki
Former Dean, Tokai University School of Medicine
President, New Health Leader Network

Dr. Takeshi Tsubo
Professor, Department of Community Health, Tokai University School of Medicine

Dr. Yoshihisa Watanabe
President, The Institute of Health Systems Development

Dr. Soroku Yamagata
Executive Director, Japanese Foundation for AIDS Prevention

Main Collaboration Organization

The World Health Organization
Regional Office for the Western Pacific

Assisted Organizations

The United Nations University
The Ministry of Health and Welfare, Japan (under application)
The Ministry of Foreign Affairs, Japan (under application)
The Japan Medical Association (under application)
The Agency for Cooperation in International Health
Japanese Foundation for AIDS Prevention
Project HOPE Japan
Keidanren
FORUM 246

Collaborating Institutions

The International Health Futures Network
The Institute of Health Systems Development

Application for Next Year

The secretariat receives the application form (Form 1) with a recommendation letter of his/her superior, a summary of his/her motive to apply the course (300 words) and personal history (curriculum vitae) by December 31, 1998 for The Fourth Training Course (1999).

The Secretary General will announce the result to applicants by the end of May.

For Further Information

If you would like to obtain any additional information please contact the Secretariat at the address on the next page.
