

Health Development Beyond 2000

The Fourth Training Course
for Future Health Leaders

1999.8.23-9.17

Tokai University
School of Medicine
New Health Leader Network

In collaboration with
The World Health Organization
Regional Office for the Western Pacific

Isehara, Kanagawa, Japan

Invitation to the Fourth Training Course

We, members of Tokai University School of Medicine and the New Health Leader Network, along with the collaboration of The World Health Organization-Regional Office for the Western Pacific (WHO-WPRO), initiated a training course entitled "Health Development Beyond 2000-Training Course for Future Health Leaders" in 1996, in the hope of global health advancement.

Thirty-one colleagues successfully completed the course, and were awarded the course certificate in the three years since 1996. They came from various countries including Lao People's Democratic Republic, Kingdom of Cambodia, Papua New Guinea, Republic of the Fiji Islands, Kingdom of Thailand, Republic of Indonesia, Mongolia, Socialist Republic of Viet Nam, People's Republic of China, Republic of Korea, and People's Republic of Bangladesh. All are now striving to do their best in such positions as director or administrator of Health and Welfare Ministries, director of national hospitals and so on.

We are honored that this course is highly regarded among colleagues who completed the First and Second Courses, and that they recommended well-qualified colleagues as participants of the 1998 course. One pleasing consequence of the course is the development of a professional network among past participants, which we believe will support this course in the near future. As you may be aware, this training is delivered by a non-governmental organization, so such professional cooperation is a vital driving force behind the course.

As the ultimate goal of this course is to help develop a world where everyone can live healthily and vividly to the end of his or her life, the goal of each course is for all participants to learn evidence-based health policy making and to gain the ability to build public health, according to the occupational position of their individual countries. We invite colleagues who agree with our aims and have strong motivation to deliver global health to all peoples of the world.

Kiyoshi Kurokawa

Dean,
Tokai University School of Medicine
President,
New Health Leader Network

Sang Tae Han

Former Regional Director,
The World Health Organization
Regional Office for the Western Pacific
Visiting Honorable Professor,
Tokai University School of Medicine
Honorary Director,
New Health Leader Network

Isao Okazaki

Professor and Chairman,
Department of Community Health
Tokai University School of Medicine
Secretary General,
New Health Leader Network

Course Objectives

Educational Aims

Social, economic and political changes are occurring at a very fast pace throughout the world. In many countries such changes, together with demographic factors such as urbanization and population aging, have been influencing an emerging future health situation vastly different from that in the past, as well as that at the present time. In addition the world is seeing an epidemiologic shift, where lifestyle-related diseases are gaining importance and, at the same time, rapid technological advances are being made which will modify health interventions in the future. Therefore, the theme of this course is "The Forecast for Health Development in the Future".

Health professionals in the future, especially those who specialize in public health, will have to show leadership in order to ensure that emerging challenges to health are met effectively. Planners, policy makers and managers of health organizations must be able to detect, identify, make judgements and then extrapolate data to forecast health conditions and requirements in the future. This will enable them to ensure quality, effectiveness, efficiency and continuity of health care in the 21st century.

Futuristic approaches, prospective studies based on evidence, and methods of improving the effectiveness of resource utilization towards better health quality and equity, have not been included in conventional public health education. This educational program consists of 5 modules: Introductory module; Problem identification and issues analysis; Health technology assessment; Medical approaches and health intervention; and Health system reform. This program was prepared in collaboration with The World Health Organization-Regional Office for the Western Pacific (WHO-WPRO). The main educational method used in the course will be problem-based or priority oriented teaching and learning. Lectures and discussions in the past three courses were evaluated using SWOT (Strengths, Weaknesses, Opportunities, Threats) analysis. The results of analysis have been used in the preparation of detailed behavioral objectives and outcomes for each activity. In order to achieve these, work and discussions will be carried out in plenary sessions or in small groups (4-5 per group), as well as by individual study.

The primary goal of this course is to build new multi-disciplinary skills, in order to meet the requirements of public health in the future, and to facilitate and prioritize the delivery of future health services in the home countries of our fellow colleagues.

Applicants qualifications

Senior national or local level health officials, with present or potential responsibility for the formulation and promotion of health policies as well as the design and implementation of programs, are invited to apply for entry. In addition to our colleagues in government research and management positions, and those supervising training within institutions, graduate students will also be considered in 1999. The upper age limit is 45 years, but exceptions will be considered on a case by case basis. Applicants should have a sufficient command of spoken and written English, and also be in good health, both physically and mentally, in order to undergo the training.

Course Schedule

8/23 (Mon.)

4:30 p.m.-6:00 p.m. The Sixth Advisory Board Member's Meeting

6:00 p.m.-8:00 p.m. Welcome Reception

**To be held at The President Hotel, Aoyama, Tokyo*

8/24 (Tue.)

International Symposium on the Safety Maintenance of Health in Economic Turmoil

**To be held at The United Nations University, Aoyama, Tokyo*

Opening Ceremony

Opening Address	Dr. K. Kurokawa	Dean, Tokai University School of Medicine
Welcome Address	Dr. S. Omi	Regional Director, WHO-WPRO
	Dr. H. V. Ginkel	Rector, The United Nations University
	Dr. K. Takemi	State Secretary, Ministry of Foreign Affairs, Japan
	Dr. H. Shinozaki	Director General for Science and Technology
Keynote Address	Dr. E. Tsuboi	President, Japan Medical Association
	Dr. S. T. Han	Honorary Director, NHLN
		Former Regional Director, WHO-WPRO

Session 1: Safety Net for Health and Well Being

Chaired by Dr. N. Tamaoki: Professor Emeritus, Tokai University

1. How to Establish Optimal Social Security Form and Structure

Dr. T. Tsubo: Professor, Department of Community Health, Tokai University School of Medicine

2. How to Make the Effective Health Impact for Improving Asian Economies

Dr. T. Sun: President, the China News Paper (Under negotiation)

3. Efforts and Recent Situations of Health Care in Thailand

Dr. Som-arch Wongkhomthong: Director, ASEAN Institute for Health Development
Professor, Mahidol University

— Lunch —

Session 2: Planning and Establishment of Formation in Process

Chaired by Ms. L. Kerse: Director, Health Infrastructure, WHO-WPRO

Dr. B. Sardjono: Chief, Division of Routine Program Formulation Bureau of Planning, Secretariat General,
Ministry of Health, Indonesia (Course participant 1996) (Under negotiation)

Ms. L. T. T. Ha: Deputy Director, Dept. of International Cooperation, Ministry of Health,
Viet Nam (Course participant 1997)

Dr. Y. Gantumur: Researcher, Ministry of Health and Social Welfare, Mongolia (Course participant 1996)

— Coffee break —

Session 3: General discussion

Chaired by Dr. S. T. Han, Dr. T. Tsubo and Dr. N. V. K. Nair

All symposists and participants

8/25 (Wed.)

**Move to FORUM 246, Isehara, Kanagawa-site*

8/26 (Thu.) - 8/27 (Fri.)

**To be held at Tokai University School of Medicine, Isehara, Kanagawa-site for remainder of the course*

1. Population and Related Issues

Problem identification and issues-Population dynamics

Dr. N. Hyoi: Senior Research Officer, National Institute of Public Health

Approaches and health interventions-Population dynamics

Dr. K. Hayashi: Professor, National Institute of Public Health

Analysis methods for future prospect in population

Dr. A. Onishi: Vice President, Soka University

8/28 (Sat.) - 9/1 (Wed.)

2. Information technology, Computer Training and BFT (Bioforecasting Technology)

Disaster medical care using satellite communication

Dr. I. Nakajima: Assistant Professor, Tokai University School of Medicine

Multimedia and telemedicine

Dr. Y. Ogushi: Professor, Department of Medical Informatics, Tokai University School of Medicine

Future Health Situation-BFT (Bioforecasting Technology)

Dr. T. Tsubo: Professor, Department of Community Health, Tokai University School of Medicine

Dr. Y. Watanabe: President, The Institute of Health Systems Development

9/2 (Thu.) - 9/6 (Mon.)

3. Non-communicable Diseases and Health Control

Problem identification and related issues-Food supply and safety

Dr. N. V. K. Nair: Former Director, Health Infrastructure, WHO-WPRO

Dr. I. Okazaki: Professor, Department of Community Health, Tokai University School of Medicine

Dr. T. Watanabe: Associate Professor, Department of Community Health, Tokai University School of Medicine

Cancer control

Dr. I. Okazaki: (as above)

Cardiovascular diseases control

Dr. S. Mizushima: Assistant Professor, The Yokohama City University School of Medicine

Control of obesity and diabetes mellitus

Dr. T. Watanabe: (as above)

Functional foods regulation

Ms. K. Kubomura: Director, Kubomura Food Institute

9/7 (Tue.) - 9/11 (Sat.)

4. Changes in Health Managing Standards

New standards of governance

Dr. T. Tsubo: (as above)

Health care reform and health transition in developing countries

Dr. T. Hasegawa: Director, Division of Health Policy Making, National Institute of Health Care Management

Hospital management engineering

Dr. T. Morooka: Professor, Department of Management Engineering, Tokai University School of Engineering

Resource allocation

Mr. H. Imai: Assistant Professor, Yamanashi Gakuin University

9/13 (Mon.) - 9/15 (Wed.)

5. Control of Emerging and Re-emerging Diseases

Approaches and intervention to infectious disease, Cholera and other G. I. infections, streptococcal infections and rheumatic fever, Epidemiology and control of tuberculosis with AIDS

Dr. R. M. Krause: Senior Scientific Advisor, Forgarty International Center, National Institute of Health

Approaches and intervention to infectious disease

Dr. I. Arita: Chairman, Agency for Cooperation in International Health

Global surveillance on emerging or re-emerging diseases

Dr. I. Arita: (as above)

AIDS control

Dr. M. Kamakura: Assistant Professor, Department of Preventive Medicine, Keio University School of Medicine

Control of Malaria epidemics

Dr. A. Kaneko: Associate Professor, Department of International Affair and Tropical Medicine,
Tokyo Women's Medical College

Control of smallpox, poliomyelitis and measles epidemics

Dr. K. Kusumoto: Chief of Specialized Outpatient, AIDS Clinical Center, Bureau of International Cooperation,
International Medical Center of Japan

Tuberculosis control

Dr. T. Mori: Director, The Research Institute of Tuberculosis, Japan Anti-tuberculosis Association

9/16 (Thu.) - 9/17 (Fri.)

6. Environmental and Occupational Health

Control of environmental and occupational health issues

Dr. T. Yoshida: Associate Professor, Department of Environmental Health, Tokai University School of Medicine

Present research status of endocrine biohazard

Dr. F. Kayama: Professor, The Jichi Medical School

Accommodation & Transportation

Welcome Reception and Registration (August 23)

Trainees and symposists of the International Symposium should register at the desk of The President Hotel (Aoyama, Tokyo) on August 23. This hotel is just in front of the subway station, Aoyama-Itchome. It takes 20 min. to walk from the hotel to The United Nations University.

Address: The President Hotel

2-2-3 Minami-Aoyama, Minato-ku, Tokyo 107-0062, Japan

From abroad: Tel. +81-3-3497-0111

Fax. +81-3-3401-4816

All domestic calls: Tel. 03-3497-0111

Fax. 03-3401-4816

Transportation:

○From Narita Airport:

· By train:

Keisei Skyliner: Narita Airport <=> Keisei Ueno Sta.
(60 min.)

Subway from Ueno Sta. via Ginza Line: Ueno Sta. <=>
Aoyama-Itchome Sta. (30 min.)

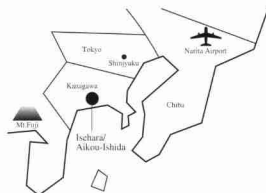

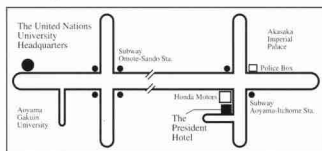

· By Limousine Bus:

Narita Airport <=> Tokyo City Air Terminal
(Hakozaki) (80 min.)

Subway from Tokyo City Air Terminal via Hanzomon
Line: Suitengu Sta. <=> Aoyama-Itchome Sta. (30 min.)

○From Tokyo Sta.:

· Subway via Marunouchi Line: Tokyo Sta. <=> Akasaka-Mitsuke Sta. (15 min.)
then change to Ginza Line: Akasaka-Mitsuke Sta. <=> Aoyama-Itchome Sta. (5 min.)

Accommodation (August 23 and 24):

All trainees and symposists will stay at The President Hotel. Trainees will be able to stay at this hotel for a few days before August 23, but reservations should be made as soon as possible.

The International Symposium (August 24)

International Symposium on the Safety Maintenance of Health in
Economic Turmoil will be held at The United Nations University, Tokyo.

Address: The United Nations University, Headquarters Building

53-70 Jingumae 5-chome, Shibuya-ku, Tokyo 150-0001, Japan

From abroad: Tel. +81-3-3499-2811

Fax. +81-3-3499-2828

All domestic calls: Tel. 03-3499-2811

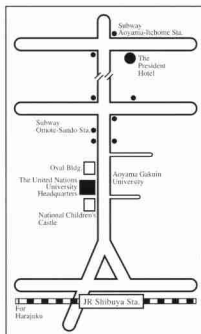

Fax. 03-3499-2828

Transportation:

○From subway Omote-Sando Sta.: 8 min. on foot

○From JR Shibuya Sta.: 15 min. on foot

○From The President Hotel: 20 min. on foot.

Accommodation (August 24 to September 17)

Trainees and lecturers will stay at FORUM 246 near the Isehara Campus of Tokai University School of Medicine (10 min. by car). It has facilities for training, exhibition and sports, together with accommodation.

Address: FORUM 246

350 Ishida, Isehara, Kanagawa 259-1126, Japan

From abroad: Tel. +81-463-96-3711

Fax. +81-463-96-3707

All domestic calls: Tel. 0463-96-3711

Fax. 0463-96-3707

Transportation:

○ From Narita Airport:

· By train:

JR Narita Express: Narita Airport

<=> JR Shinjuku Sta. (90min.)

· By Limousine Bus:

Narita Airport <=> JR Shinjuku Sta. (2 hours)

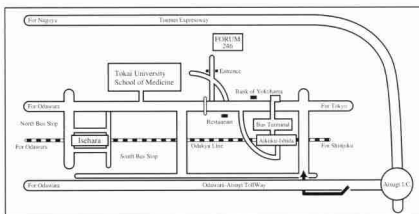

○ From JR Shinjuku Sta.: Change lines at Shinjuku from JR to Odakyu Line.

Odakyu Shinjuku Sta. <=> Aikou-Ishida Sta. (55 min.)

Note: You have to get Odakyu Line express bound for "Odawara" or "Hakone-Yumoto" and ride in the 1st-6th cars from the front. FORUM 246 is located 7 min. on foot or a few min. by taxi from Aikou-Ishida Sta.

○ By car: Take the Tomei Expressway and get off the highway at Atsugi I.C. (30 min. from Tokyo).

It takes 10 min. from Atsugi I.C. to FORUM 246.

The Training Course (August 25 to September 17)

The Training Course will be held mainly at the Isehara Campus of Tokai University School of Medicine.

Address: Tokai University School of Medicine, Dept. of Community Health

143 Shimokasuya, Isehara, Kanagawa 259-1193, Japan

From abroad: Tel. +81-463-93-1121, Ext. 2620-2621

Fax. +81-463-92-3549

All domestic calls: Tel. 0463-93-1121, Ext. 2620-2621

Fax. 0463-92-3549

Transportation:

○ By train: Odakyu Shinjuku Sta. <=> Isehara Sta. (57 min.)

Note: You have to get Odakyu Line express bound for "Odawara" or "Hakone-Yumoto" and ride in the 1st-6th cars from the front. It takes 20 min. to walk from Isehara Sta. to the Isehara Campus of Tokai University School of Medicine.

○ By car: Take the Tomei Expressway and get off the highway at Atsugi I.C. (30 min. from Tokyo).

It takes 20 min. from Atsugi I.C. to the Isehara Campus of Tokai University School of Medicine.

Application and Registration

Application Procedure

Applicants should send the *Application Form (Form 1)*, a recommendation letter from his/her superior, a summary of his/her motivations for entry to the course (approx. 300 words), and a personal history (curriculum vitae) to the Secretary General, Dr. Isao Okazaki, M.D., Ph.D. by May 31, 1999.

If any applicant wishes to receive funding, he/she should send a letter of request, together with a recommendation letter from his/her superior to Ms. L. Kerse, Director, Division of Health Infrastructure, World Health Organization-Regional Office for the Western Pacific (P.O. Box 2932 Manila, Philippine).

How applications are processed at the Secretariat

1. Applications

The credential committee is responsible for the acceptance of applicants. Successful applicants will receive from the Secretariat on official letter of acceptance, general information, and a questionnaire to enable effective grouping of participants for computer practice, by June 30, 1999.

2. Funding Support

Each applicant has different personal conditions and circumstances. The Secretariat carefully examines each individual request and consider such factors as self funding, support by professional superiors, and attainment of WHO Fellowships or other scholarships, in order to comply with the applicant's request, as much as possible.

Registration procedure

Successful applicants should send the *Registration Form (Form 2)* together with the completed questionnaire to the Secretariat as soon as possible. Tuition and accommodation fees must be received at least 3 weeks before the start of the training course.

Tuition Fees

The tuition fee for the 1999 course is US \$5000. Successful applicants should remit this amount by bank transfer. Account details can be found on the *Registration Form (Form 2)*.

Accommodation Fees

Accommodation including three meals each day, is available for the 4 weeks of the course, for US \$5000. Successful applicants should remit this amount to the same bank account as the tuition fee.
